

**OMICRON KAPPA UPSILON
JON B. SUZUKI RESEARCH AWARD EVALUATION FORM**

INVESTIGATOR NAME: _____ **UNIVERSITY NAME:** _____

1. Significance **20 Points** _____

Given the current scientific challenges and opportunities, does the project advance knowledge within the field, or more broadly? Is there a possibility of further funding for this project, or do the outcomes merit further study?

2. Innovation **20 Points** _____

Does the project apply novel concepts, methods, and/or technology? Or, does it use the aforementioned in novel ways to enhance the project?

3. Feasibility **20 Points** _____

Consider the quality of the project: are findings replicable, possible within estimate timeframes, and feasible given current methods and technology.

4. Rigor **20 Points** _____

Will the data collected be detailed and/or robust? Will there be detectable biases?

5. Investigator **20 Points** _____

Does the investigator have the qualifications, knowledge, experience, and/or connection to additional assistance and facilities to complete the project?

Total points _____

Committee Member: _____
